ABS Alpha Group GmbH

ABS Alpha Group: A success story

In 1993, Markus Laube founded the owner-operated ABS Office Systems GmbH in Bad Vilbel, Germany. Providing high quality office furniture from various reputable manufacturers remains the focus of the company today.

Building upon a foundation with NATO and U.S. Forces (GSA Contractor) via a framework agreement with the United States government, ABS is one of the few German companies with such privileges. This speaks for our company's unique abilities and exceptional customer service, which are qualities appreciated by any client.

Furthermore, ABS Bürosysteme Handels GmbH specialized in the sale of prefabricated buildings constructed of steel and wood. Buildings are available based on permanent use or a limited time period. The ABS building portfolio also addresses warehouse and environmental technology.

After years of development and planning, ABS develops its premier furniture series. The Bristol, Swindon, Sheffield and Cornwall series go into production. Years of experience together with know-how enable this courageous step. Originally specializing in the mere distribution of office furniture systems, ABS is now a full-fledged manufacturer.

After nearly two decades in business, ABS continues to focus on quality, Creativity and most importantly - customer satisfaction.
Our corporate divisions at a glance.

The ABS Alpha Group GmbH website has a new structure. The five corporate branches can now be viewed as separate websites in corporate design, so you benefit from specific information based on your needs.
